Ratiopharm GmbH, one of the leading manufacturers and suppliers of generic pharmaceuticals on the German market, is part of the TEVA group.

Our group repeatedly commissioned the company AP Fachübersetzungen with the interpretation of various audits which were carried out over the span of several days by the Russian Ministry for Industry and Commerce as well as the Ministry of Health of the Republic of Belarus.

Mr Alexander Podarewski, the managing director of AP Fachübersetzungen, is a native speaker of the German as well as the Russian language. He has always made a very good choice when selecting additional specialist interpreters to join the interpreting team.

Interpretation was provided in the following areas, among others: manufacturing and weighing of raw and auxiliary materials, active agents, production, filling, packaging, storage and transport of medicine, incoming and outgoing deliveries, sampling, ventilation and air conditioning, water treatment, hygiene, operation and maintenance of various systems in the laboratory and production, validation of processes and methods, microbiological test procedures, chemical

In addition to his expertise, Mr Podarewski also left a good impression with his very pleasant interaction in the communication between the different parties, even in difficult interpreting situations.

We will use the company AP Fachübersetzungen again for further interpreting services and are happy to recommend them.
