Letter of Recommendation for AP Fachübersetzungen

The Hamburg-based company Kolo Agrarhandel GmbH stands for expertise in the import of selected organic raw materials. We supply the products from our diverse portfolio within the entire European Union.

We have been closely working together with the translation agency AP Fachübersetzungen for three years. Within this period, the very friendly employees have interpreted at the BIOFACH exhibition for Russian and English and have also translated specialist texts into English.

We have come to appreciate the company AP Fachübersetzungen as a reliable cooperation partner without exception - even in challenging situations. Thanks to their performance-oriented way of working, our cooperation has always been to our utmost satisfaction.

In addition to their exemplary expertise in the field of translation, we also value their customer friendliness and the excellent price/performance ratio. We would also like to thank the entire team at AP Fachübersetzungen for their expert support in the representation of our company as well as in various PR projects.

Keep up the outstanding work!

Vladyslav Kootun

Yours sincerely,
CEO
